 楼层: 12层  
 总面积: 7,500平方米  
 竣工日期: 2010年  
 Location: Netherlands  
 Architect: WAM Architecten  
 Floors: 12 floors  
 Gross Floor Area: 7,500 sqm  
 Completion Date: 2010

# Inntel Hotel

## Inntel 堆叠酒店

### 【推荐理由】

这不是违法的顶楼加盖，也不是童话故事里的乐高积木，而是设计师的创意之作，是一间现代与传统兼具的特色旅馆。由数个传统荷兰木制民屋所堆叠、拼凑而成的绿色建筑，传统与现代交融，在赞丹市区成为众所瞩目的焦点！

The new Inntel hotel in Zaandam is without a shadow of a doubt already the main eye-stopper and a building that has set many tongues wagging in the Netherlands. The iconic green wooden houses of the Zaan region were the fount of inspiration for the hotel's designer. The structure is a lively stacking of various examples of these traditional houses.

Wilfried van Winden envisages the hotel as a temporary home, alluding to that transience with the stack of houses. The hotel is unique, familiar yet original and idiosyncratic. It is a design that could be realised only in Zaandam but at the same time transcends and reinvigorates local tradition. Fusion represents an inventive way of linking present and past, tradition and innovation, high culture and low.

毋庸置疑，Inntel 酒店已经成为荷兰赞丹整个城镇的地标，原因在于其独特的建筑设计，同时该酒店也成了众人议论的话题。整个酒店由赞丹地区传统的标志性木制房屋堆叠组成，绿色的外观、白色的屋檐和橘色的斜顶屋顶，看起来就像是放大版的乐高模型。设计师 Wilfried van Winden 谈到设计初衷时说，大多数人都将旅馆看作临时栖息之地，他想藉由这样的设计来加强人们的这种观念。最后呈现在人们面前的建筑让人感觉既熟悉又独特。这种设计只能在赞丹实现，同时它也是对当地传统文化的一种超越和复兴，是一种联接过去与现在、传统与前卫，融合了下里巴人和阳春白雪的设计。
